We are doing the Holster Course and Handgun Essentials Course once a Month (usually on Sun.) but some Saturdays would be good as well.

**VICTORIA FISH & GAME GUN SHOW - JULY 30th, 2017**

The gun show was a huge success. Albeit a tight squeeze, we were able to accommodate 34 vendors inside and three vendors outside. Perry Chow had a military re-enactment display table. Spectators included 180 men, 14 women and 4 youths. The 50/50 draw of \$184 was won by John Wood. A huge round of applause and thanks to the following volunteers: Dave Metcalf and his parking crew Agnes Cubachica, Rick Ferrill, Steve ;Duncan Haydon and his kitchen staff, Chris Jones, Dwayne York and Joni; Caleen Taylor, Stephen Thorne, Lisa Nichols, Wynn Jones, Sybil Kangas, Cathy Steele, Liz Jatkowski, Donna Sainsbury. A special thanks to Angela Greene for helping with the set up and kitchen cleanup.

### **VICTORIA WOMEN'S SHOOTERS EVENT**

*The third rifle training for the Victoria Women Shooters was held on July 15th, 2017. Eleven people took advantage of this training event and a great time was had by all. Feedback from the participants indicated that the instructors were easy to listen to, clear on instructions, patient and adapted their teaching to the comfort of the student; there was a good range of firearms and more than enough ammunition for everyone to try; the whole club was very friendly, efficient and felt safe, and the experience helped one member make a decision on what new rifle to buy.*

*Many thanks to David Michaud, Brendon Warwaruck and Bernard Stewart for another fabulous shooting opportunity for the Victoria Women Shooters.*

### **Fired Range Brass Program reminder!**

Just a reminder to our members to only put fired pistol and rifle cartridge cases (brass or steel) into the plastic range brass buckets. I just spent a few hours pre-sorting through 10 buckets of brass to remove the plastic shot shell hulls, used paper targets, empty cardboard ammo boxes, plastic ammo trays, used earplugs (LOTS of those), used Kleenex, and other misc garbage that should NOT be put in the brass buckets. Please use the provided garbage cans on our ranges for your garbage and ONLY put your fired rifle and pistol cartridge cases in the buckets provided for range brass. It will definitely help to make my job a lot easier ... and a lot less disgusting. It is a fairly time consuming job to separate and sort all of the various calibres of brass to make them available to the members that reload, but it makes it far more time consuming when I have to pre-sort all of the garbage out of the brass buckets first.

**Check page 28 in this newsletter for information.**

Many thanks in advance,

**"Many thanks to the club members who have donated their surplus, reloadable brass to our club's brass recovery program lately! It is very much appreciated."**

### SIAS CLUB MATCH JULY 23rd

We had a Club Match on July 23rd and despite over a dozen of our regular shooters being away shooting IPSC Nationals in Alberta we still had 35 people attend.

A big shout out to the 4 SIAS members who came out on July 29th to make sure the Q and Zone group had a great time, Doug B, Kyle G, Rick F and Dave M, THANK YOU!!

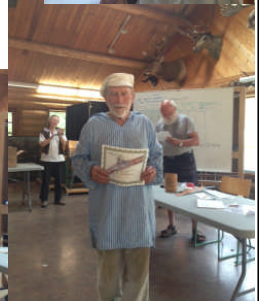

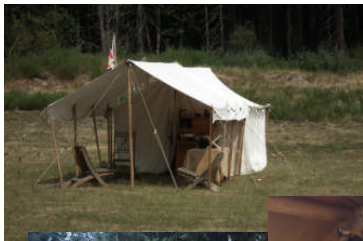

We are hosting IPSCBC Qualifiers on September 2nd and 3rd which will see some 100 shooters competing each day, including some of the best in the Province! A great opportunity for people to come out and see what Action Pistol shooting is all about!

### MALAHAT MARAUDERS RENDEZVOUS

We had 43 shooters participated in the 2017 VFGPA Malahat Marauders rendezvous over the BC Day weekend. Despite the super hot weather and smoky skies, it seems a good time was had by all. Unfortunately, due to fire hazard (as usual) we were unable to use our rifle trail, so all shooting was done on the regular ranges, where we could easily keep an eye on things; then charcoal burners do throw some sparks! But we had no problems. We sat about 50 folks for a potluck dinner (we supplied the meat and potatoes), which was once again masterfully prepared by Chef Perry. Many thanks to those members who set up and took down the targets and the Fort (We know who you are), and to those who shared their culinary talents for the potluck.

### **SHOOTING AT VFGPA -Update**

The response to the idea of developing a discipline of Competitive Bullseye Shooting at VFGPA was very encouraging and we have 8 participants signed up with an expression of possible interest by a few others.

We have been given a booked time on the MP range [Thank you] and we plan a match each Wednesday morning beginning at 09.00 [set up 0845]

As we begin the program we are taking time to introduce short shooting clinic and match tips and techniques before the match. Shooters have all the shooting skills and the effort now is to bring all the complexities of Precision shooting into the 8/9/10 ring focus.

Bullseye shooting is about marksmanship. Some are seasoned shooters while others are new to the discipline. In the first 4 weeks we are seeing great progress and our competitive shooting goal is developing nicely.

We appreciate the support given to the effort by Dom and David and look forward to seeing the discipline continue to expand.

The range can accommodate 7 shooters and of course not everyone can make every match so we feel we can accommodate another 3 or 4 shooters.

**If Bullseye/Precision Competitive Shooting is of interest to you Please contact Gary Byrne at 250.634.8215. He can share additional details and answer any questions you may have.**

### Airsoft News

Airsoft activities are continuing to grow with attendance approaching 30 players on each of our last two game days. A number of trails have been cleared and a number of strong points have been built on the range which has enhanced everyone's enjoyment. The Airsoft Committee used the funds raised with our previous raffle to purchase 2 @ 10'x10' sun shelters and 3 @ 6' folding tables. The purchase was matched with a donation by Rick Rutherford of an additional 2 sun shelters and 3 tables for a total of 4 shelters and 6 tables. We now have plenty of shade and places for our players to setup their gear and relax in between games. The first 2 fire extinguishers have been permanently mounted on the range: one at the Airsoft club house and one down on the playing field. 2 more are planned for installation on the playing field later in August. Our caretakers have setup a 50 gal. water barrel in our parking area which is really appreciated because you work up a mighty thirst playing Airsoft. Please come out and join in the fun. **Upcoming game dates are:**

### **IMPORTANT MESSAGE**

This is just a reminder that by law if you own a restricted firearm you must have a gun club membership (any gun club) or you may be subject to having your restricted firearms confiscated by the RCMP. Also make sure your PAL has not expired. As life gets busy we all know how easy it is to forget things. If you have firearms you want to dispose of, contact the club if you require assistance.

**IMPORTANT NOTICE TO ALL MEMBERS**

A reminder that all members of the Victoria Fish & Game are required to take our Free two hour Range Orientation Course every five years.

We are having a lot of changes & upgrades to the various ranges, and we do not want our members left behind with their knowledge of the range and its requirements.

New members are required to take the course before they are allowed to use any of our facilities. If you are an existing member, and have not already taken the course, please look at our Website calendar and attend one of our sessions as soon as possible.

We require everyone to have their membership card, and an orientation card with them when attending the range .... so don't take a chance on being asked to leave if you do not have a card!!

## **TRAINING TIPS**

**Victoria Fish & Game Association, 700 Holker Place, Malahat BC**

**SAFETY REMINDERS--PLEASE READ**

**FIREARMS--CASES--BENCHES**

- \* Firearms are to be cased and uncased ONLY during Live Periods and preferably only at the Firing line (forward wooden benches) Actions open, Magazines removed (empty cases can be returned to rear gear tables)
- \* Firearms are to be Loaded and Unloaded ONLY on the Firing Line (forward wooden shooting Benches)
- \* Muzzles are always to be pointed down range or upwards.  
(magazine may be filled or emptied at the rear gear benches and tables).

**“CEASE FIRE” ROUTINE/PROCEDURES:**

- \* Remove ammunition from the Chamber. Remove magazines from the action
- \* Leave actions visibly open-(a chamber flag helps visibility!)
- Then- **Your Choice:**
- \* Leave firearm(muzzle pointed down range, magazine removed, action open) on FIRING LINE bench.

**Or**

- \* Carry firearm muzzle up and place in rear wall rack- magazine removed action open.
- \* Remember to take needed targets, tape, stapler, beverage, etc. with you when leaving the shooting bench area for the Cease Fire Period. (An RSO can retrieve forgotten items.)
- \* During a Cease Fire DO NOT go within 3 metres of the firearms on the bench or handle firearms on the racks( Remember your P.A.L. Course). Do not touch anything on your shooting table. (An RSO can retrieve forgotten items).
- \* During a Cease Fire the divided concrete slab area around the shooting benches is to be used to walk through only on the way to your target and back. Please remain off the shooting table area concrete during cease fire periods.

**Safety Tip**

Each Range has a Perimeter Flag. If the Red Flag is in the UP position that is a indicator that the range is active. Even if their is a cease fire shooting can start at anytime.

It is a good idea to put your Hearing Protection on at the Perimeter Flag before you get to the active range. (Range Rules require that hearing and eye protection be worn on the Ranges.)

The Federal Licensing Course suggest you wear both in ear and outside ear protection, another option is the "Electronics Earmuffs" Good Christmas List need item.

Once your hearing is damage it cannot be fixed and it does not repair itself.

**VICTORIA FISH & GAME ANNUAL BIG GAME COMPETITION**

Hunters are reminded that Blacktail deer taken in MU 1-1 through 1-13 by Victoria Fish & Game members are eligible for the five trophies available each year. Deer must be field dressed which means that the heart, liver and kidneys (edible portions) are the only internal organs which can be included when the animal is weighed. Deer must be weighed on Club scales by the caretaker or his designate.

The official weigher reserves the right to refuse weighing any deer which arrives in an unpresentable condition. Lungs must be removed and body cavity wiped dry with a rag or paper towels. Deer 160 pounds and over taken with a rifle and 140 pounds and over taken by bow and arrow must be witnessed by an executive member at time of weighing. Please contact the Club caretaker/manager or Wayne Zaccarelli to make arrangements. Hunters are reminded that access to club facilities is restricted to daylight hours with the gate locked progressively earlier through the hunting season. Please ensure that you confirm the time gates are locked and show up at least a half hour earlier.

**Trophies available include:**

McIlwaine Van & Storage (est. 1955) largest deer / rifle

Victoria Fish & Game (est. 1966) largest scoring antlers

Robinson's Sporting Goods (est. 1970) largest deer / bow & arrow

Bob Hollingworth Memorial (est. 1983) largest buck deer / junior member

Malahat Marauders (est. 1990) largest deer / muzzle loader

Gold, silver and bronze buttons are awarded in both rifle and bow & arrow classes for deer in the following weight categories:

	<b>RIFLE</b>	<b>BOW &amp; ARROW</b>
<b>Gold</b>	<b>180 lb +</b>	<b>160 lb +</b>
<b>Silver</b>	<b>160 - 179 ½ lb</b>	<b>140 - 159 ½ lb</b>
<b>Bronze</b>	<b>140 - 159 ½ lb</b>	<b>120 - 139 ½ lb</b>

In addition, the Victoria Fish & Game Bear trophy is awarded annually for the largest Black bear taken by a Club member. Boone & Crockett Club scoring is used to determine the largest entry. Boundaries are again MU 1-1 through 1-13.

**A JOKE FOR THE MONTH**

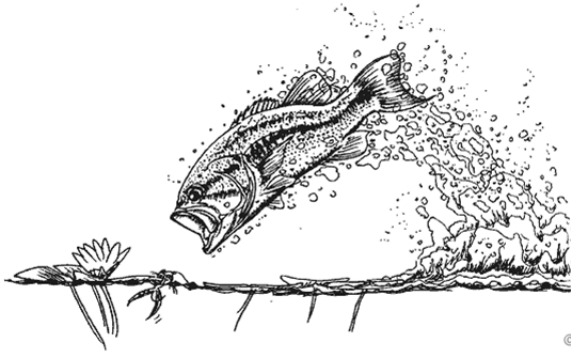

A time and motion expert, an engineer, and a manager were out on a hunting trip and were caught in a storm. They find a small trappers cabin and go inside. They see a wood stove hanging from the rafters by a whole bunch of bailing wire. Being cold and wet they build a fire and start to debate why the wood stove is suspended from the rafters.

The time and motion guy points out that having the stove at a more convenient height makes loading the stove with firewood easier and faster and suggests that is why it was done. The engineer tells him he has it all wrong. The stove being elevated creates better convection currents to circulate the heat efficiently around the room. The manager tells them both they are wrong, and lack any big picture understanding. (Without offering any explanation of his own of course.)

Eventually the trapper arrives back at the cabin. Glad of the company he settles in under the hot stove to warm up and meet his guests. They immediately begin offering their opinions on why he hung the stove up in the air hanging from the rafters with bailing wire. The trapper looks at them and says: "Well, I didn't have much stove pipe for the chimney, but I did have a lot of bailing wire".

**NEW VANCOUVER ISLAND DEER BOOK**

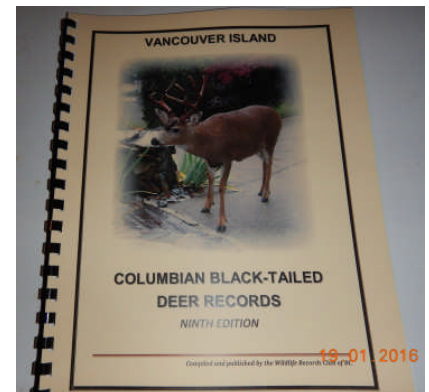

Copies of the ninth edition (2016) of the Vancouver Island Columbian Blacktail Deer Records are available at a cost of \$10 each. The publication contains an excellent article written by Byron Mason on fifty years with the deer in the Nimpkish Valley. Byron relates the impact of wolf and cougar predation on deer population abundance and hence, hunting success. He also includes 45 years of deer count data from 1970 through 2015.

There is also an article on early cougar hunting where the provincial government paid a bounty of varying amounts on cougars taken between 1870 and 1958. The new edition contains numerous colour photographs of harvested deer as well as record heads and antlers.

Copies of the previous eighth edition (2010) are still available at a cost of \$5.00.

The current records list over 2160 entries scoring 100 or more Boone & Crockett points.

Of particular note is the re-scoring of the Norm Hammond buck from 1942. These antlers were the number two head in the previous eighth edition (2010) scoring 139 7/8.
